By building homes we will give our low income Alaskan Native/ American Indian (AN/AI) families a sound boost up in life, by providing them with a safe and 6 star plus energy efficient home.

There will be one home built per grant year for a verified low income AN/AI family.

**Rehabilitation and Weatherization Programs:**

Promote safe and decent housing through Rehabilitation and greater Energy Efficiency through Weatherization.

## SECTION 3: PROGRAM DESCRIPTIONS

[102(b)(2)(A)], [233(a)], [235(c)], [404(b)], 24 CFR §1000.512(b)(2) and (3)

### Planning and Reporting Program Year Activities

In this section, the recipient must provide a description of its planned eligible activities, and intended outcomes and outputs for the One-Year IHP. The recipient can select any combination of activities eligible under NAHASDA and intended outcomes and outputs that are based on local needs and priorities. There is no maximum or minimum number of eligible activities or intended outcomes and outputs. Rather, the One-Year IHP should include a sufficient number of eligible activities and intended outcomes to fully describe any tasks that the recipient intends to fund in whole or in part with IHBG resources during the coming program year.

Subtitle B of NAHASDA authorizes recipients to establish a program for self-determined housing activities involving construction, acquisition, rehabilitation, or infrastructure relating to housing activities or housing that will benefit the low-income households served by the Indian tribe. A recipient may use up to 20 percent of its annual allocation, but not more than \$2 Million, for this program. Section 233(a) of NAHASDA requires a recipient to include its planned self-determination program activities in the IHP, and Section 235(c) requires the recipient to report the expenditures, outputs, and outcomes for its self-determination program in the APR. For more information, see PIH Notice 2010-35 (Demonstration Program - Self-Determined Housing Activities for Tribal Governments) at [http://portal.hud.gov/hudportal/documents/huddoc?id=DOC\\_8814.pdf](http://portal.hud.gov/hudportal/documents/huddoc?id=DOC_8814.pdf)

The One-Year IHP is not required to include eligible activities or intended outcomes and outputs that will not receive IHBG resources. For example, the recipient may be planning to apply for Low Income Housing Tax Credits (LIHTC) from its state. If those tax credit projects will not receive IHBG resources, they are not required to be described in the IHP. However, the recipient may wish to include non-IHBG activities in the IHP to provide tribal members with a more complete picture of housing activities.

If an activity will receive partial funding from an IHBG resource, it must be described in the IHP.

For example, if the recipient uses IHBG-funded staff persons to manage, inspect, or maintain an LIHTC-funded rental project, that project would be considered an IHBG-assisted project and the related activities must be described in the IHP.

Planning and Administrative expenses and loan repayments should not be identified as programs in the IHP. That is why there are dedicated rows in the Uses of Funding budget for these expenses. Instead, describe anticipated planning and administrative expenses in Section 6, Line 4 of the IHP, and describe actual planning and administration expenses in Section 6, Line 5 of the APR. Report the planned and actual amount of planning and administrative expenses in the dedicated row of the Uses of Funding budget (Section 5, Line 2). Please note that Reserve Accounts to support planning and administration is an eligible activity and should be identified as a program in the IHP, and any planned or actual expenditure from the Reserve Account would be reported by its program name in the Uses of Funding table.

For the IHP, complete the **unshaded** sections to describe the planned activities, outcomes and outputs in the coming 12-month program year. The recipient must complete Lines 1.1 through 1.4, Lines 1.6 and 1.7, and Line 1.9 for each eligible activity or program planned for the One-Year IHP. For the APR, complete the shaded sections to describe actual accomplishments, outcomes, and outputs for the previous 12-month program year. In particular, complete Lines 1.5, 1.8, 1.9, and 1.10 for each program included in the IHP.

**IHP: PLANNED PROGRAM YEAR ACTIVITIES (NAHASDA § 102(b)(2)(A))**

For each planned activity, complete all the non-shaded sections below. It is recommended that for each program name you assign a unique identifier to help distinguish individual programs. This unique number can be any number of your choosing, but it should be simple and clear so that you and HUD can track tasks and results under the program and collect appropriate file documentation tied to this program.

- One way to number your programs is chronologically. For example, you could number your programs 2011-1, 2011-2, 2011-3 etc.
- Or, you may wish to number the programs based on type. For example rental 1, rental 2, homebuyer1, homebuyer 2 etc. This type of numbering system might be appropriate if you have many programs that last over several years.
- Finally, you may wish to use an outline style of numbering. For example, all programs under your first eligible activity would start with the number 1 and then be consecutively numbered as 1.1, 1.2, 1.3 etc.

## APR: REPORTING ON PROGRAM YEAR PROGRESS

Complete the shaded section of text below to describe your completed program tasks and actual results. Only report on activities completed during the 12-month program year. Financial data should be presented using the same basis of accounting as the Schedule of Expenditures of Federal Awards (SEFA) in the annual audit. For unit accomplishments, only count units when the unit was completed and occupied during the year. For households, only count the household if it received the assistance during the previous 12-month program year. (NAHASDA § 404(b))

### 1.1. Program Name and Unique Identifier:

Homeownership Program = Unique Identifier: HC-2024

### 1.2. Program Description (This should be the description of the planned program.):

#### 1.2. Program Description

The Homeownership program aims to provide safe and decent housing through either acquisition or building of new homes. Housing that we currently are building are all LED lighting throughout the home, with homes being built to the 6 star BEEs energy efficiency rating. Homes meet all current fire, safety and plumbing codes. We prefer to build homes versus acquiring homes because most homes located within our Tribal service area were built without safety or fire codes in place, and are safety hazards or falling apart and would end up not lasting the life of the mortgage. Newer constructed built homes that are built to current fire and safety codes, may be acquired if they pass a current Building Engineers Inspection, are built to no less than 6 star BEEs energy efficiency rating and built using all current fire and safety codes. We will build or buy homes and mortgage to the qualified family, one interest free, zero down, home per grant year. This mortgage payback will be: one half the total development building cost of the home, to the low income AN/AI that meets the qualifications established by NAHASDA and the Niniichik Indian Housing Programs policies.

### 1.3. Eligible Activity Number (Select one activity from the Eligible Activity list. For any activity involving housing units as the output measure (excluding operations and maintenance), do not combine homeownership and rental housing in one activity, so that when housing units are reported in the APR they are correctly identified as homeownership or rental.):

Applicants must not have owned a home within the last five years, and have no outstanding debt to warrant a home being taken away in a lawsuit. Applicants must keep their information current since being added to the list.

**2.7. Types and Level of Assistance** (Describe the types and the level of assistance that will be provided to each household, as applicable.):

NIHP has determined that to deal with the lead based paint regulations, we will only work on homes built after 1978, unless the homeowner can provide a valid certificate of no lead based paint within the home, or if the work to be done will not disturb any painted surfaces.

Work will be put out for bid through the NTC Procurement Department using procedures and policies established for

procuring a Contractor. No funds will be spent prior to the Environmental Review being completed. Applicants are based upon a completed application with first come first served basis, pending verification of eligibility and availability of funds. Exception to this will only be given in an immediate safety concern or due to natural disaster.

Modular / Manufactured homes built to HUD Standards, may apply for the full grant amount only if manufactured after 1990 and can provide proof of age with title or compliance certificate. Must be on sound foundation, not jacks, wood or concrete blocks. Unless grant will be used to put the home on a sound foundation.

Funding will provide insulation, skirting, sealants, thermal windows, doors, LED light replacement, or anything that will help make a home more heat / energy efficient. We feel that this is a very important issue in protecting our Tribal people and one that will help lower their electric and fuel bills providing them with more opportunity to forward themselves in other financial areas.

Limit is \$2,000.00 per home/household every 5 years unless the Council approves a greater cost. Applicants can do their own work if they choose, allowing the full funds to go into materials and not into paying for a contractor.
